NERDS 2nd Airway Workshop

Monday 27th March 2017
Freeman Hospital, Newcastle upon Tyne, NE7 7DN

Course aims:
To provide training in common equipment and techniques for managing the difficult airway, for anaesthetists in training or career-grade doctors wishing to update and refresh their skills.

Course objectives:
1. Learn a variety of practical techniques for managing expected and unexpected difficult airways.
2. Understand the techniques available for managing the difficult paediatric airway.
3. Discuss the role of human factors in decision-making in difficult airway cases.

Course schedule:
Instructor to delegate ratio will be maximum 1:2. All instructors are experienced anaesthetists with an interest in the difficult airway. Course contents will be in line with the RCoA curriculum and CPD matrix (1B02, 2A01). Approved for 5 CPD points.

Course programme:
