## In Memory of Dr. Pavendan

It gives me immense pleasure and pride to invite you all to the 5<sup>th</sup> edition of RAALS which stands for “Ramachandra Advanced Airway Life Support”. This annual airway course is conducted by the Department of Anesthesiology and Pain Medicine at Sri Ramachandra Medical College and Research Institute, Chennai. It is the first airway course in the country to have obtained both DAS (UK) accreditation and SAM endorsement.

The course begins with CME on 3<sup>rd</sup> August, focusing on the basic and advanced airway management protocols by leading airway experts. This will be a blend of concept based lectures, guidelines, video sessions and problem based learning discussions. It is followed by in-depth demonstration and focused hands on training on the mannequins at different skill stations. There is also a simulation based training which would provide opportunity to apply the knowledge and skills learnt in the CME and Workshop.

The final day will be the exit evaluation and the certification, as a completion to this comprehensive airway course. I hope with ardent fervor that all of you participate in this course, interact with your peers and experts, enjoy our hospitality and go back home feeling it was worth it.

Welcome to **RAALS 2018**
