

the difficult airway course™ EMS

theairwaysite.com

The Definitive EMS Airway Course

- **Learn the full range of airway management techniques** — including use of extraglottic devices, medication-assisted intubation and cricothyrotomy.
- **Work with experienced faculty** who know the unique challenges facing EMS providers.
- **Use all of the airway devices** in small group sessions.
- **Practice decision making and airway techniques** in Code Airway™ stations.
- **Face the most challenging patient scenarios** in a no-risk environment. These include elevated ICP, pulmonary edema, cardiogenic shock, status asthmaticus, foreign body in the airway, direct airway trauma, multiple trauma with shock, and many more.
- **Receive the definitive airway textbook**, *Manual of Emergency Airway Management* by Ron Walls, MD and Michael Murphy, MD.
- **Meet your continuing education requirements.** This course is approved by CECBEMS and ASTNA.
